

Christina Ma christinama.vercel.app wuxuan.ma@gmail.com Irvine, CA

Summary Product designer with 8+ years of experience observing how first-time users interact with products. I teach kindergarten full-time, which means I watch five-year-olds navigate new interfaces every day – and I bring that perspective to everything I design. I’ve shipped two apps to the App Store end-to-end – design, build, and launch – and I’m fluent in English and Mandarin.

Projects **ABC Countdown** 3D Nostalgia Game
A 3D game where adults relive the wonder of being a kindergartener – each letter of the ABC countdown is a mini-game. Building in Unity with Blender for 3D modeling and AI coding tools for development.

In progress – 2026

Little Checks Habit Tracking App

Designed and built end-to-end in SwiftUI, from concept to App Store launch. Based on the behavior charts I use with my kindergartners, I adapted a proven classroom model into a consumer product. Includes Mandarin localization.

Shipped 2026 – App Store

Dear Traveler Interactive Story Game

An interactive diary game inspired by Tom Riddle’s diary and Lifeline. I wrote the full branching narrative, composed background music, and designed every screen.

Shipped 2025 – App Store

Student Testing Platform UX Research Case Study

Observed hundreds of kindergarten and elementary students taking standardized tests, documenting 10 distinct steps and pain points. Redesigned the experience in Figma with reduced cognitive load and clearer navigation.

2025

Experience **Irvine International Academy** Mandarin Immersion Teacher

Design curriculum, assessments, worksheets, and homework for 5–6-year-olds, then observe daily how they interact with the materials – direct insight into first-time user behavior.

Aug 2023 to Present – Irvine, CA

University of Washington Writing Instructor

Designed and taught two undergraduate writing courses from scratch – business writing and biology writing. Built the full curriculum, lesson plans, and assignments around clear, structured communication.

Sep 2022 to Jun 2023 – Seattle, WA

East Lake Elementary Lead Mandarin Immersion Teacher

Led curriculum design for a dual-language immersion program, creating materials that work across languages and cultures. Managed 30+ students through project-based learning.

Aug 2018 to Jun 2021 – South Jordan, UT

Education **University of Washington** M.A. TESOL 2021 to 2023 – Seattle, WA

Brigham Young University B.S. Elementary Education 2013 to 2018 – Provo, UT

Skills **Design** Product Design, User Research, Interaction Design, Prototyping, Information Architecture, Usability Testing

Tools Figma, SwiftUI, Unity, Blender, GarageBand, AI coding tools
